

GIOCHI

I - V elementare

LE BANDE DEL TEMPO

Ambiti disciplinari: Grandezze e misure.

Conoscere i termini legati alla scansione del tempo (parti della giornata, giorni della settimana, mesi e stagioni). Saper ordinare cronologicamente le parti della giornata, i giorni della settimana, i mesi e le stagioni.

Tempo.

Il gioco "Le bande del tempo" rappresenta un'occasione per apprendere o consolidare termini e aspetti legati al tempo ciclico (parti della giornata, giorni della settimana, mesi e i mesi associati alle stagioni) e al loro ordinamento. Un gioco con numerose varianti pensato per sviluppare la collaborazione: si vince o si perde tutti insieme!

NUMERO DI GIOCATORI:	2-4
DURATA MEDIA:	15 min
COMPLESSITÀ:	bassa/media
STRATEGIA:	media

Scopo del gioco

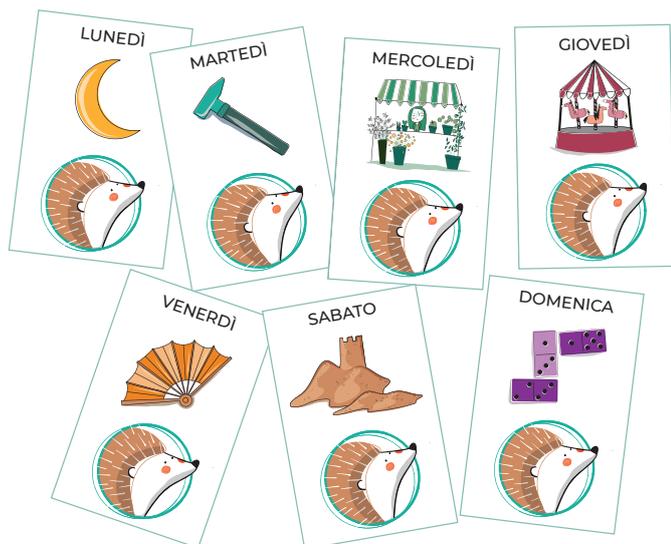

Posizionare sul tavolo le carte dello stesso tipo di animale tra i sei disponibili (tasso, riccio, volpe, cervo, scoiattolo e cinghiale) che completano un gruppo, detto "banda", legato a uno dei quattro aspetti del tempo (parti della giornata, giorni della settimana, mesi e i mesi associati alle stagioni) disposti in ordine cronologico. Ogni banda è formata da un numero di carte che dipende dall'aspetto del tempo a cui appartengono (7 carte per le parti della giornata, 7 carte per i giorni della settimana, 12 carte per i mesi e 8 carte per i mesi associati alle stagioni). Per ciascun aspetto del tempo (parti della giornata, giorni della settimana, mesi e i mesi associati alle stagioni) sono dunque disponibili 6 diverse bande, ognuna contrassegnata dallo stesso animale.

Di seguito sono riportati alcuni esempi di bande complete.

Banda dei tassi per le parti della giornata

Banda dei ricci per i giorni della settimana

Banda dei cervi per i mesi associati alle stagioni

Banda degli scoiattoli per i mesi

Preparazione

Stampare le “carte folletto” antagonista (**Allegato 1**): si tratta di un puzzle che rappresenta un folletto dispettoso. Il puzzle va composto come mostrato di seguito, poi le carte vanno girate una per una a faccia in giù senza cambiarne la posizione.

Selezionare uno dei mazzi delle “carte animale” legati ai quattro aspetti del tempo (parti della giornata **Allegato 2**; giorni della settimana **Allegato 3**; mesi **Allegato 4**; mesi associati alle stagioni **Allegato 5**), mescolare le carte e distribuirle ai giocatori, basandosi sulle indicazioni riportate nella seguente tabella.

Mazzo	Carte totali presenti nel mazzo	Carte da distribuire a inizio gioco in base al numero di giocatori
Parti della giornata (Allegato 2)	42	2 giocatori: 5 carte 3 giocatori: 4 carte 4 giocatori: 3 carte
Giorni della settimana (Allegato 3)	42	2 giocatori: 5 carte 3 giocatori: 4 carte 4 giocatori: 3 carte
Mesi (Allegato 4)	72	2 giocatori: 10 carte 3 giocatori: 7 carte 4 giocatori: 6 carte
Mesi associati alle stagioni (Allegato 5)	48	2 giocatori: 7 carte 3 giocatori: 5 carte 4 giocatori: 4 carte

Le carte restanti vanno impilate e posizionate a faccia coperta al centro del tavolo, così da formare il mazzo di pesca. I giocatori stabiliscono arbitrariamente chi deve giocare per primo. Il gioco si svolge poi in senso orario.

Svolgimento

Durante il proprio turno il giocatore può posizionare una delle sue carte al centro del tavolo se riesce a rispettare uno di questi due vincoli:

1. la carta posizionata permette di iniziare una nuova banda di animali (questo si può fare se sul tavolo non sono già state posizionate altre carte che appartengono alla stessa banda, cioè che sono contrassegnate dallo stesso animale per lo stesso aspetto del tempo);
2. la carta posizionata permette di continuare o completare una banda di animali già esistente rispettando l'ordine cronologico (per esempio, se sul tavolo è già stata posizionata la carta "domenica" di una determinata banda di animali è possibile posizionare vicino ad essa solo la carta "sabato" a sinistra o "lunedì" a destra dello stesso tipo di animale. Non è invece possibile posizionare un altro giorno con quell'animale, come ad esempio la carta con "mercoledì").

Per continuare una banda è necessario che l'animale riportato sulla carta sia dello stesso tipo. Quando un giocatore scarta la carta che com-

pleta una banda di animali, annuncia: "Banda!" e legge ad alta voce la sequenza costruita (parti della giornata, giorni della settimana, mesi, mesi associati alle stagioni).

Ogni volta che il giocatore posiziona una carta sul tavolo deve pescare una nuova carta dal mazzo di pesca. In questo modo al termine del proprio turno il giocatore ha sempre in mano lo stesso numero di carte che aveva all'inizio. Il turno passa quindi al giocatore successivo in senso orario.

Se un giocatore non può posizionare alcuna carta perché non riesce a rispettare i vincoli dati (iniziare una nuova banda di animali o continuare/completare una banda di animali già esistente), deve girare una delle "carte folletto" e passare il turno al giocatore successivo in senso orario.

Nel corso della partita i giocatori possono parlare tra di loro delle carte che hanno in mano, senza però mostrarle; trattandosi di un gioco collaborativo è in effetti auspicabile attuare delle strategie per favorire il gioco dei compagni e per riuscire a vincere tutti insieme.

Fine del gioco

I giocatori vincono tutti insieme la partita se riescono a completare tutte le bande di animali, posizionando quindi tutte le "carte animale" del mazzo.

I giocatori perdono tutti insieme la partita se le sei "carte folletto" vengono tutte girate.

Possibili sviluppi

Per far comprendere il gioco agli allievi è possibile giocare le prime partite a carte scoperte. In questo modo tutti i giocatori sono a conoscenza delle carte che hanno gli altri, e hanno più elementi per decidere quale "carta animale" è meglio posizionare in modo da favorire il gioco e la creazione di bande di animali.

Un altro modo per semplificare il gioco è quello di proporre solo un numero ridotto di carte, soprattutto per alcuni aspetti del tempo più complessi come i mesi. Per questo aspetto è possibile introdurre gradualmente le carte alla classe seguendo il calendario scolastico, presentando una nuova carta ogni mese. Questo può permettere di iniziare a giocare a gennaio con meno carte (solo quelle dei mesi che si sono approfonditi, ovvero settembre, ottobre, novembre, dicembre

e gennaio). Si possono poi aggiungere le nuove carte con il trascorrere dei mesi per arrivare alla fine dell'anno con tutte le carte. Lo stesso può avvenire per l'aspetto del tempo dei mesi associati alle stagioni.

Gli **Allegati 2b, 3b, 4b e 5b** sono costituiti da versioni personalizzabili delle "carte animale" per i diversi aspetti del tempo che possono essere decorate e colorate dagli allievi inserendo per esempio elementi legati al tempo (i vestiti indossati in base alla stagione, la frutta o la verdura che è indicato consumare in un determinato mese ecc.). La personalizzazione delle carte rappresenta una possibilità interessante da proporre in seguito a discussioni o percorsi legati alla ciclicità del tempo. Per personalizzare le carte dei giorni della settimana, in un'ottica interdisciplinare è inoltre possibile proporre un lavoro sulla fonologia, individuando con gli allievi delle parole che cominciano con le sillabe iniziali dei diversi giorni della settimana. Per "lunedì" si potrebbe così raffigurare un elemento il cui nome inizia con "lu" come "luna" e così via.

Durante le prime partite può inoltre essere utile stampare le plance da gioco (in fondo al documento, dopo l'**Allegato 5b**) e lasciarle a disposizione dei giocatori. Sulle plance sono riportate le sagome delle carte e i rispettivi animali al centro, e i giocatori possono utilizzarle come supporto per il posizionamento delle "carte animale" quando vengono posizionate sul tavolo. Tramite l'uso delle plance è più semplice osservare quali bande sono già state iniziate e quali invece no, oppure stabilire quale "carta animale" è necessario posizionare per continuare correttamente la sequenza. A dipendenza della scansione temporale, in allegato sono a disposizione plance da gioco con diversi elementi di supporto.

Materiale

Le "carte folletto" devono essere stampate su un cartoncino resistente o plastificate. Si consiglia di stampare le "carte animale" in formato A4 su cartoncino resistente. Le plance sono invece da stampare in formato A3. Tutti i materiali sono reperibili nei seguenti allegati:

- **Allegato 1:** Le "carte folletto" antagonista;
- **Allegato 2a:** Le "carte animale" delle parti della giornata;
- **Allegato 2b:** Le "carte animale" delle parti della giornata da personalizzare;
- **Allegato 3a:** Le "carte animale" dei giorni della settimana;
- **Allegato 3b:** Le "carte animale" dei giorni della settimana da personalizzare;
- **Allegato 4a:** Le "carte animale" dei mesi;
- **Allegato 4b:** Le "carte animale" dei mesi da personalizzare;
- **Allegato 5a:** Le "carte animale" dei mesi associati alle stagioni;
- **Allegato 5b:** Le "carte animale" dei mesi associati alle stagioni da personalizzare.

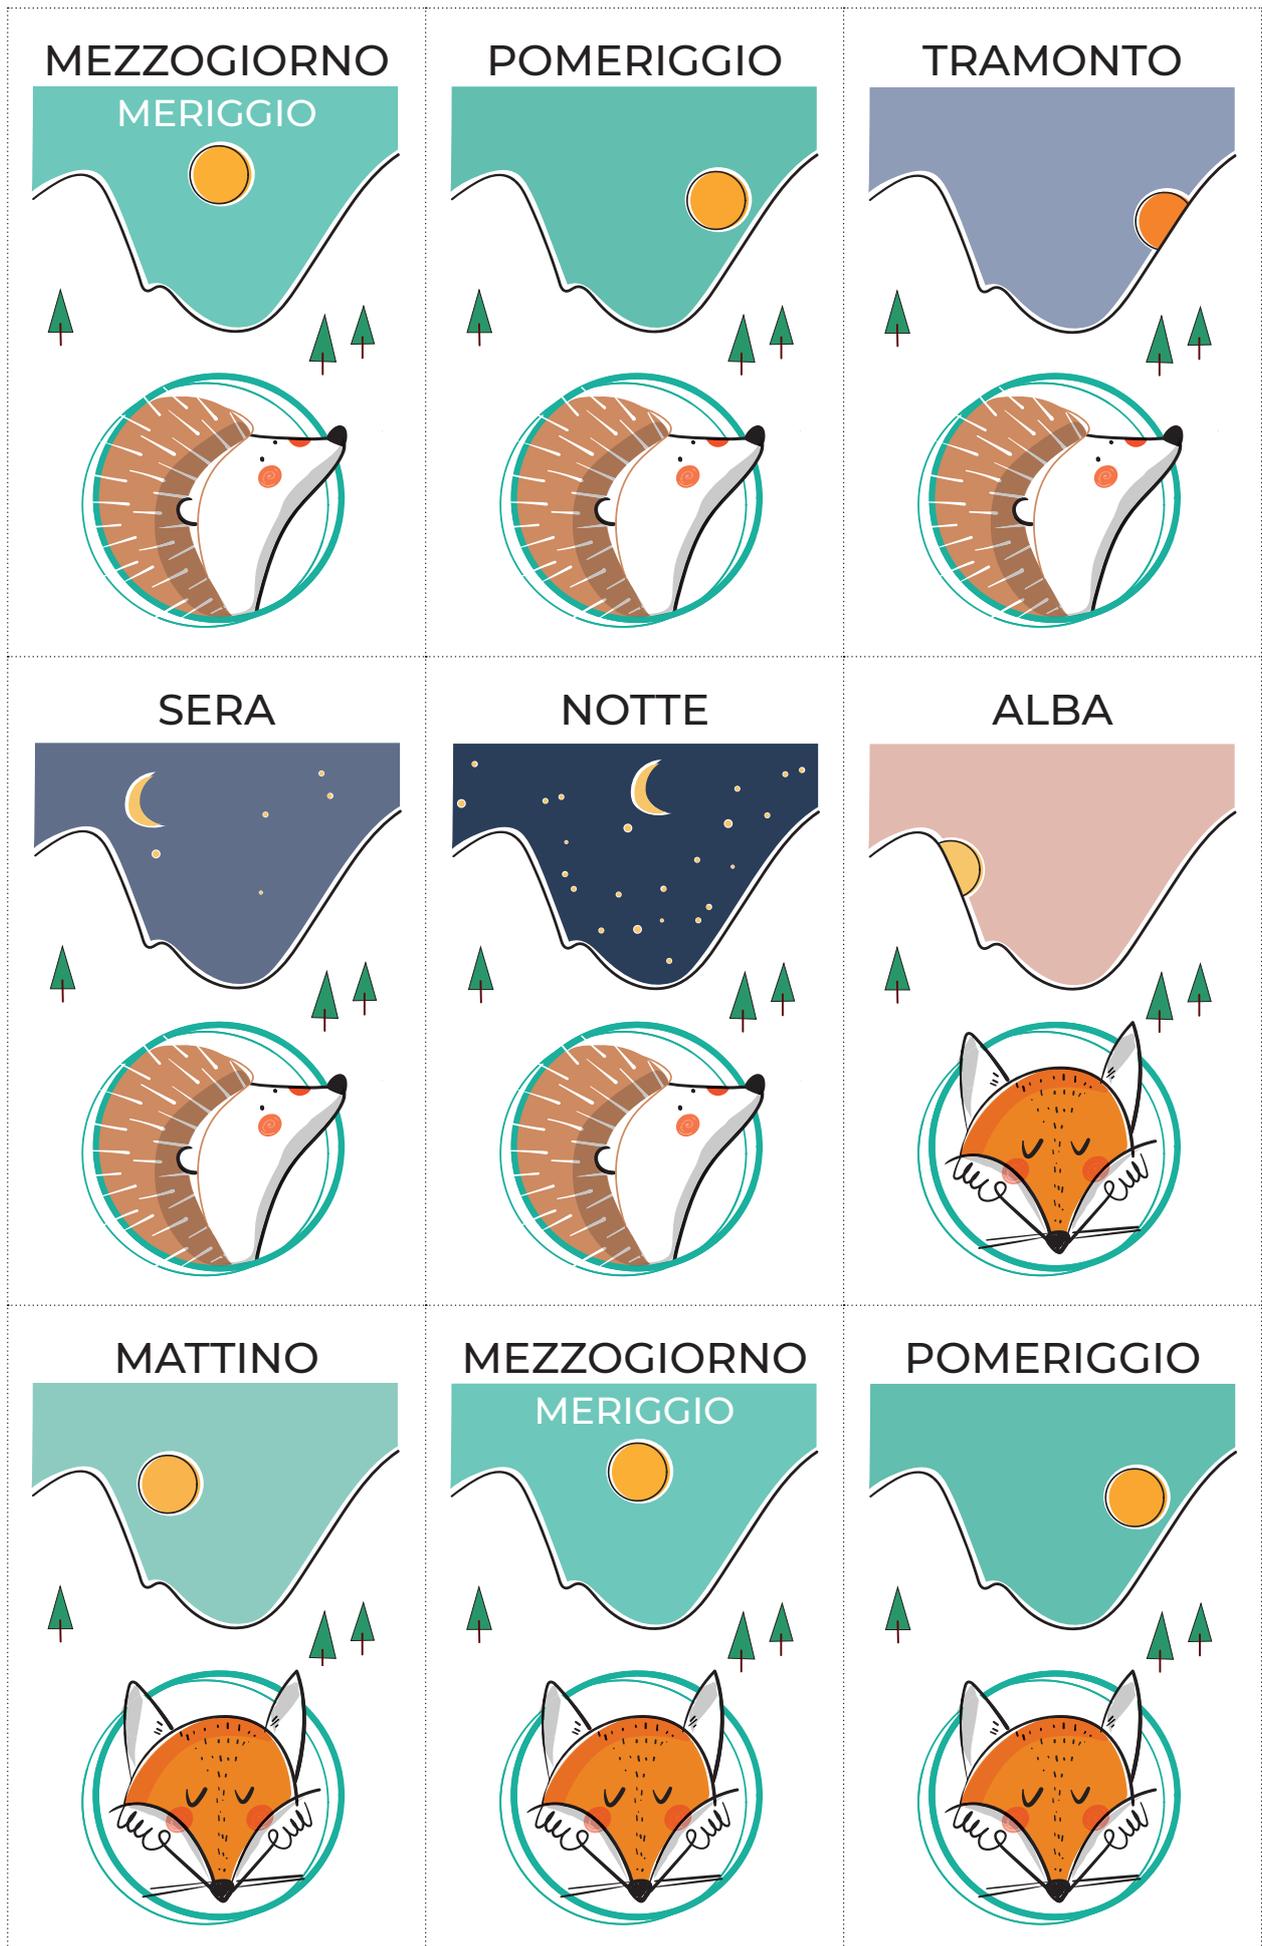

Seguono le plance da gioco:

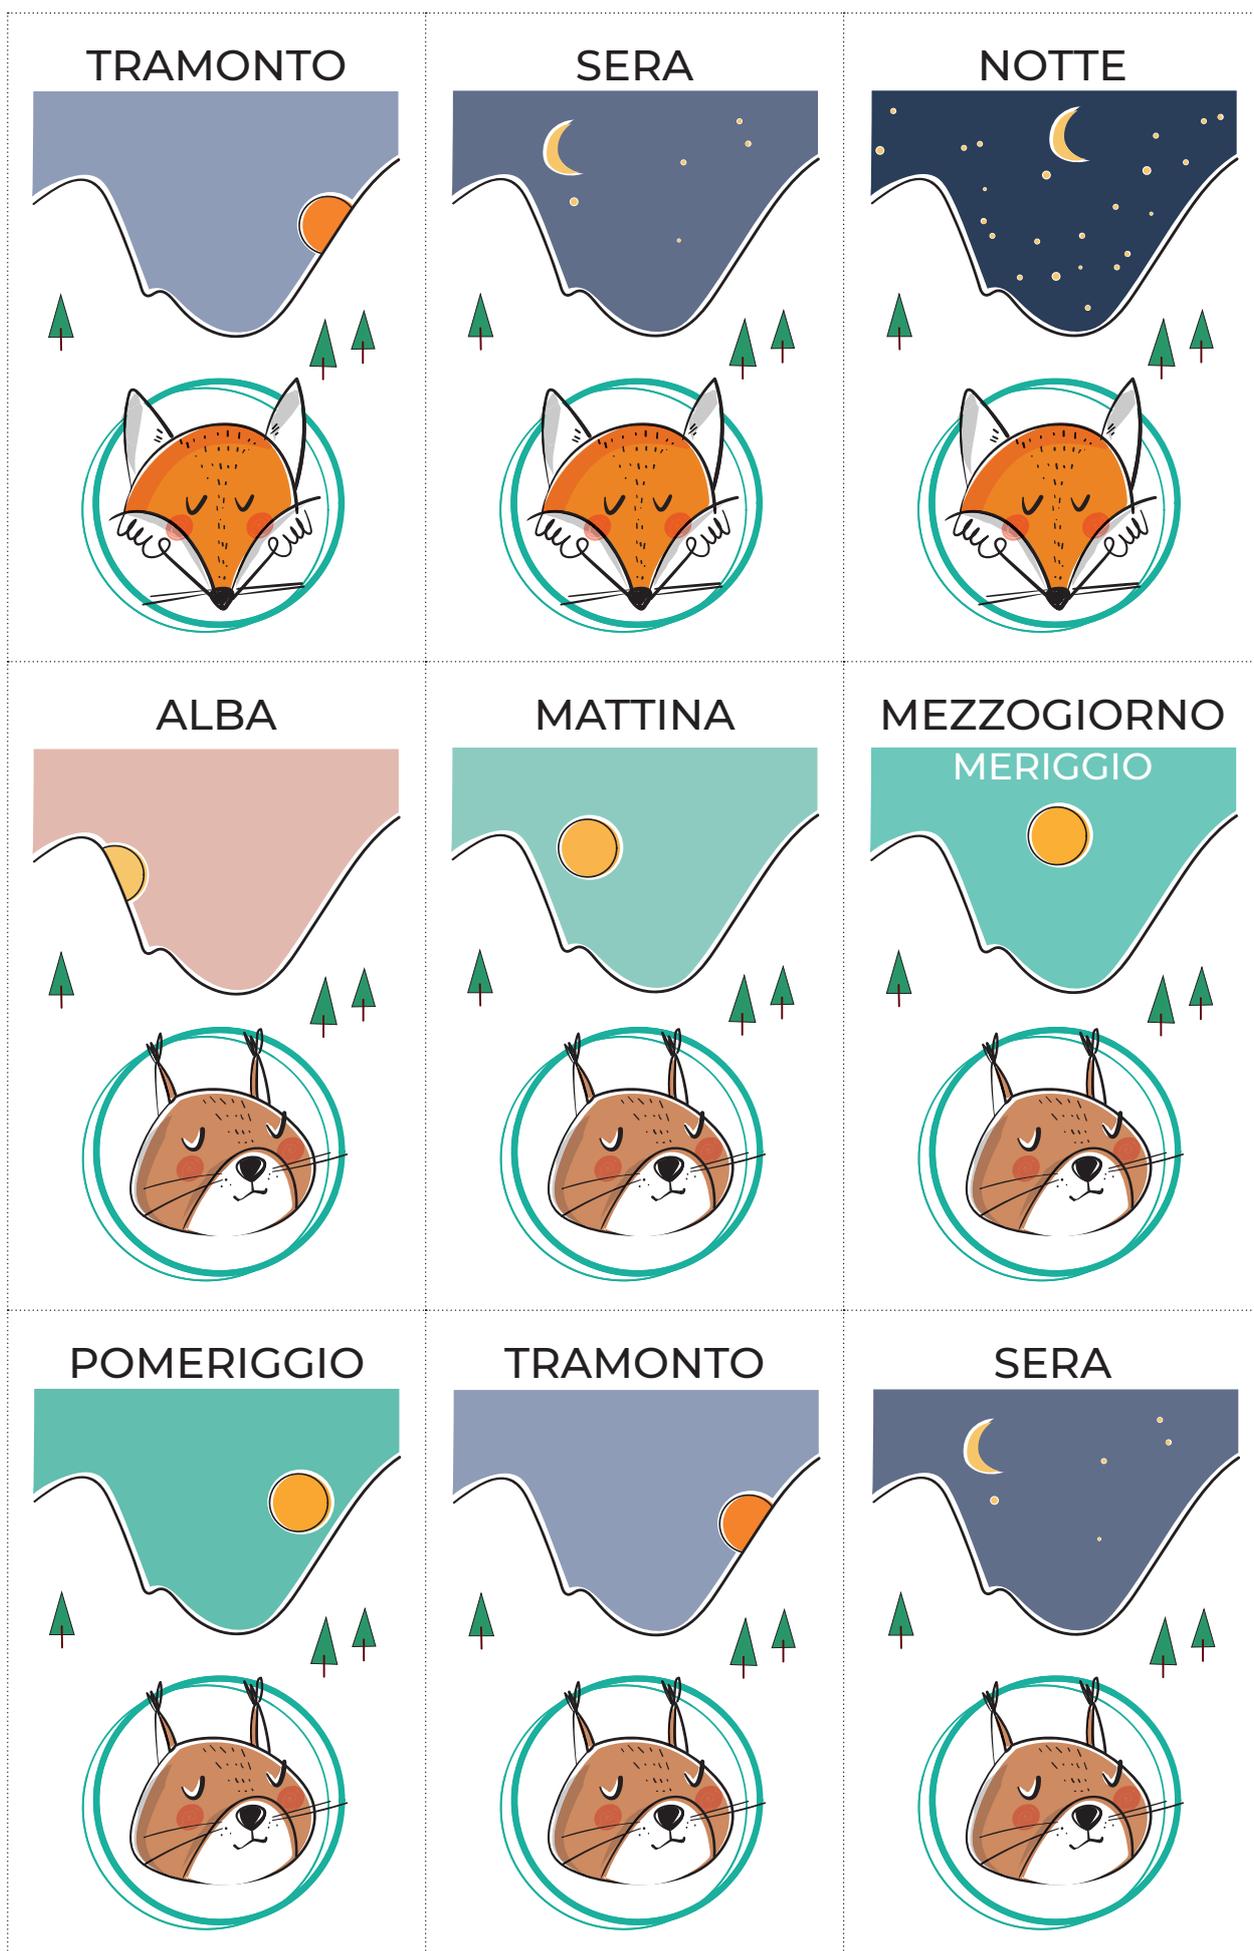

- per le carte delle parti della giornata versione base;
- per le carte delle parti della giornata solo con le sagome;
- per le carte dei giorni della settimana versione base;
- per le carte dei giorni della settimana solo con le sagome;
- per le carte dei mesi versione base;
- per le carte dei mesi con i numeri;
- per le carte dei mesi solo con le sagome;
- per le carte dei mesi associati alle stagioni versione base;
- per le carte dei mesi associati alle stagioni solo con le sagome.
